- EAN 8717249815624

## Why Back Support Cushions?

To reduce or prevent back pain caused by poor posture. The cushions improve musculoskeletal conditions. They offer lumbar support and support the natural shape of the spine.

### The spine

The lumbar spine is the lower part of the spine between 6 - 7. It's where the natural hollow shape of the spine is situated.

### For who?

- People who sit 6 hours or longer
  - And / or people who sit on chairs with poor support
  - At the office or in the car
- Or:
- For people with back issues

## Different types of support cushions

- Winged shaped cushions (1331, 1341) for lower back and lumbar
- Curved cushion (1332) for natural position of the spine
- Lumbar rolls (1333) to relieve lower back pain
